

Staff Scheduler — School Edition

Your whole EA team on one live timetable — who is with which student, every session of every day.

Purpose-built Education Assistant timetabling that replaces the spreadsheet: one column per EA, one row per session, students attached to every allocation, drag-and-drop reassignment, and one-off day overrides that never break the standing weekly template. Classes with no EA cover show in red on the day they happen. Every change saves automatically and is logged — leadership, admin and EAs all see the same live timetable.

KEY FEATURES

- ✓ **EA master timetable** — every EA, every session, one grid; drag any class between columns to reassign it on the spot
- ✓ **Students on every allocation** — answer “who is with this child in Session 3?” instantly, and print it
- ✓ **Weekly template + day overrides** — sick days, excursions and assemblies change one date only; the standing roster stays intact
- ✓ **No-cover gaps, visible** — classes without an EA show in red the day it happens, with one-click assignment
- ✓ **Tier 1/2/3 program rosters** — Breakfast Club, MacqLit, sensory programs and 1:1 supports run alongside the main timetable
- ✓ **Term-aware for WA schools** — term dates and week labels built in; plan whole terms and future academic years ahead
- ✓ **Print-ready PDF exports** — master timetable (A4/A3) plus a one-page roster for each EA, ready for the relief folder
- ✓ **Auto-save, change log, per-user access** — every edit attributed and logged; leadership edits, everyone else views
